## BACKUP AS A SERVICE

Built on break-through, award-winning next-gen cloud technology from DATA3

## Scalable Cloud Backup Solution

Our new Backup-As-A-Service is a complete out-of-the-box enterprise solution for businesses and MSPs. We offer a turnkey solution that is fast, secure and scalable. This new service is built and hosted on "The D3 Cloud" and offers the same reliability and performance that you would expect from our state-of-the-art Cloud 2.0 architecture. MSPs can quickly provision scalable cloud backup solutions for their customers at the click of a button.
