

THE **D3** CLOUD

Not All Clouds Are Created *Equal!*

Built on *award winning* hypercloud technology, "The D3 Cloud" delivers an unmatched combination of price-performance and product features.

The D3 Cloud: Features And Benefits

1. More efficient than Amazon and Microsoft Azure
2. Infinite scalability
3. Reliable architecture
4. Highly economical
5. Higher performance
6. Self-healing, auto-failover and reliable
7. High availability
8. Ease of deployment
9. Easy migration
10. Industry leading SLAs
11. Security & compliance

The D3 Cloud - Breakthrough Technology

"The D3 Cloud" Architecture

CLOUD 2.0

- Fully distributed scalable architecture
- Flexible L2 networks
- Performance via dedicated resources
- Hyper-converged VM-centric infrastructure

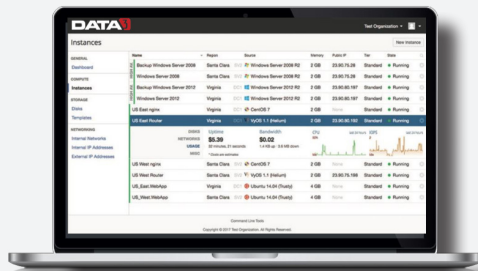

INTEGRATED STORAGE

- Distributed block storage system (DSAN Storage)
- World-class storage performance

INFINIBAND TECHNOLOGY

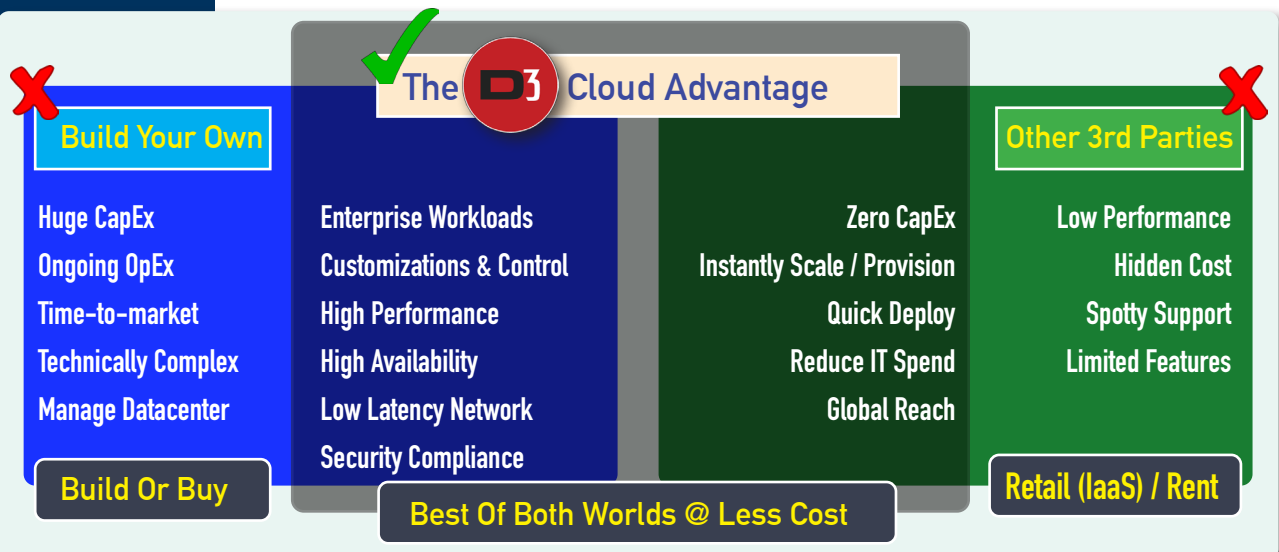

- High I/O with data consistency through synchronous replication
- Instant provision, clone & deployment

Innovative Portal

- Flexible turnkey self-service web portals
- Access and manage your environment
- Instant provisioning of your resources
- Customizable dashboard
- Set your own thresholds
- Monitor performance
- Spin-up new virtual machines using templates
- Usage reports

The D3 Advantage

High Availability

Drastically
Reduce Downtime

Simplify
Deployments

SELF-HEALING / AUTO FAIL-OVER / RELIABLE

- Redundant, decentralized InfiniBand fabric
- Continuously replicate storage across several nodes while maintaining performance
- Ability to distribute storage efficiently across clusters
- Remove hot-spots without impacting performance
- Network-backed storage allows us to automatically migrate your instance to different nodes in the event of a physical server

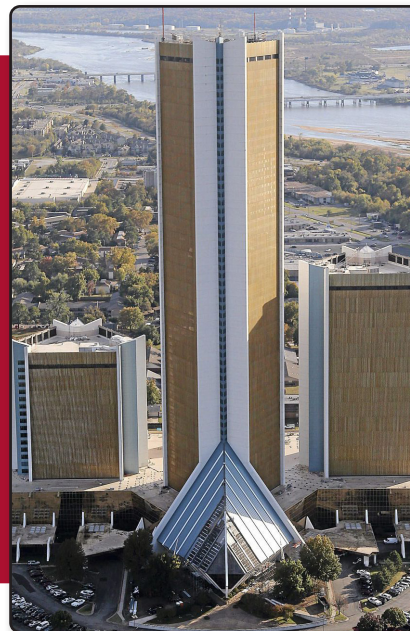

Our Popular Packages

Features	Basic	Premier	Premier Plus
CPU Cores	2 Cores	4 Cores	16 Cores
RAM	8 GB RAM	16 GB RAM	64 GB RAM
Storage	100 GB Standard	250 GB Standard	500 GB Standard
Bandwidth	250 GB/Month	500 GB/Month	1000 GB/Month
* Basic Webserver *High Storage *High Storage / High Compute			

Call us today for custom pricing based on your configuration requirements.

Contact Us

For **20 years**, we have served **Fortune 500** and other companies providing them with **secure space** in our data centers, and developing **enterprise class software solutions**.
